USAA

Mortgage Loan Officer

Dec. 2017 to Current

Leveraged Software Engineering skills to rebuild mortgage tools to improve employee experience and efficiency
Compiled and analyzed business data to produce financial reports from raw data sets using SQL, Excel, and Business Intelligence tools.
Top producing loan officer consistently exceeded performance metrics. Achieved promotion and Eagle Award in 2019
Identified a process gap through data analysis which extended mortgage cycle times by 3 days. Communicated this gap to stakeholders to improve the process, reducing cycle time on the floor.

USAA

Mortgage Processor

Sept. 2014 to Dec. 2017

Key member of project team tasked to implement new mortgage processing system. Identified new processes and generated workflow documentation. Monitored, analyzed, and presented on key data metrics to ensure success of application roll out.
Acting team lead supervising team of processors, identifying and clearing roadblocks, leveraging resources, and providing engaging coaching
Top producing mortgage processor consistently exceeded performance metrics. Achieved promotion in 2015 and 2017
