PROJECTS

Examples of my projects available on my portfolio website

Ezra-Net Social Media Website
App: Fully featured social media website including login, friends, statuses, messages, and comments. Front end built using JavaScript, React, and Redux. Back end built as a RESTful API using Node JS, Express, and Mongo DB.

Tech: JavaScript, React, Redux, Semantic UI, Node JS, Express, Mongo DB

Sleezy's Used Cars
App: Car dealership website that pulls data from an existing API including dealership locations and vehicles in inventory. I built the front end pulling data from an existing API. Full CRUD functionality on both the locations and vehicles.

Tech: JavaScript, React, Redux, Semantic UI

Evan's Casino
App: Casino application including war and blackjack card games. Cards are generated by using Deck of Cards API, all logic and design built into the app

Tech: JavaScript, Bootstrap, HTML, CSS

Double R Video Productions Website
App: Website for local video production company Double R Video Productions. Includes information about the company presented with a stylish and modern interface including looking good on mobile devices. Includes form to send a message as well as videos pulled from Google Drive API

Tech: JavaScript, Bootstrap, HTML, CSS

FULL STACK SOFTWARE ENGINEER

EVAN ROSEN

Experience

WEB DEVELOPER
Personal Projects | 2008 - 2020
